

Skin 2.0

TAP INTO THE FOUNTAIN OF YOUTH

SKIN CARE IN THE SHAPE OF HIGH-TECH YARN

What if you could protect and heal your skin, just by wearing the right clothes? Our Skin 2.0 fabrics do just that. Imbued with active ingredients ranging from aloe vera to Q10, these fabrics nourish the upper epidermis simply by being worn. Scientific tests prove that skin benefits from being in contact with our specially designed Nylon microfiber fabric, which rejuvenates ageing skin, helps control orange peel appearance and gives your skin back its firmness. Youthful, healthy skin, all thanks to advanced nanotechnology.

BENEFITS OF THE SKIN 2.0 TECHNOLOGY

INCREASES SKIN ELASTICITY

HELPS TO MOISTURISE SKIN

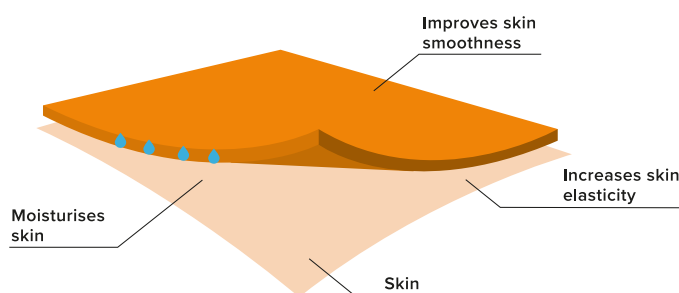

IMPROVES SKIN SMOOTHNESS

SCIENTIFICALLY PROVEN RESULTS

HOW DOES IT WORK?

Our skin 2.0 fabrics are composed of Nylon microfibres, in which particular cosmetics are embedded. This ground-breaking technology uses **microcapsules** that **release active ingredients that are beneficial to the skin**, such as rosehip or almond oil. Independent laboratories confirm our findings: wearing these cosmetic functional nylon fibres with active principles on your skin, ensures it is **nourished on a constant basis**.

**The following technology can be applied to all qualities upon request*
